Background Note

The population count for each of the 22 provinces and their respective districts is provided in this Brochure. The population count for all the wards in every LLG in the country is currently being prepared and will subsequently be released and be made available in early 2014. The Booklet on the 2011 Final Figures provide more details on population counts by provinces, Districts and the LLGs. These Booklets are available at NSO for interested users who may wish to obtain copies for their own use.

One important indicator provided in this Brochure is a comparative trend on the population growth over the last 4 censuses since 1980. After 31 years the country's population has more than doubled from 3 million to what is now 7.3 million.

The annual growth has consistently remained high at over 2.5 percent annually in the previous 3 censuses and now stands at 3.1 %. The national, regional and provincial annual growth rates are provided in this brochure.
